1- Introduction

Zeevou API

Zeevou is an easy-to-use online platform that automates hospitality management - from marketing, to bookings, to operation. It's also a global community that helps you grows your hospitality business through cutting-edge automation, industry-leading training, and world-class support.

2- Portal

Add Listings

The screenshot shows the Zeevou portal interface. On the left is a dark sidebar with navigation links: Pricing, Listings (highlighted with a red box), Countries, Cities, Areas, Properties (highlighted with a red box), Buildings, Floors, Unit Types, Units, Contacts, and Integrations. The main content area is titled 'SORTED STAY' and 'Listings / Properties'. At the top, there's a dropdown menu labeled 'All Property' (circled in red with a '1') and a 'Create Property' button. Below this are filters for Marketing Name, Internal Name, Address, City, Country, and Active. A table lists three properties: CATHEDRAL WALK - CHELMSFORD PENTHOUSE APARTMENTS, COMPASS POINT, and COTSWOLD ROAD. At the bottom right, there's a 'Rows Per Page' selector set to 100 and a '20 of 20' indicator.

The screenshot shows the Zeevou portal interface with a modal open. The modal title is 'How many individually lettable units are there in this property?'. It has two buttons: 'One' and 'Multiple'. A red box highlights the 'Create Property' button in the background, and a red circle with the number 2 is next to it. The background shows the same 'Properties' section as the previous screenshot, but the 'All Property' dropdown is now set to 'Options'.

- 2- Images upload manually

Manual sync options

1- All Data sync

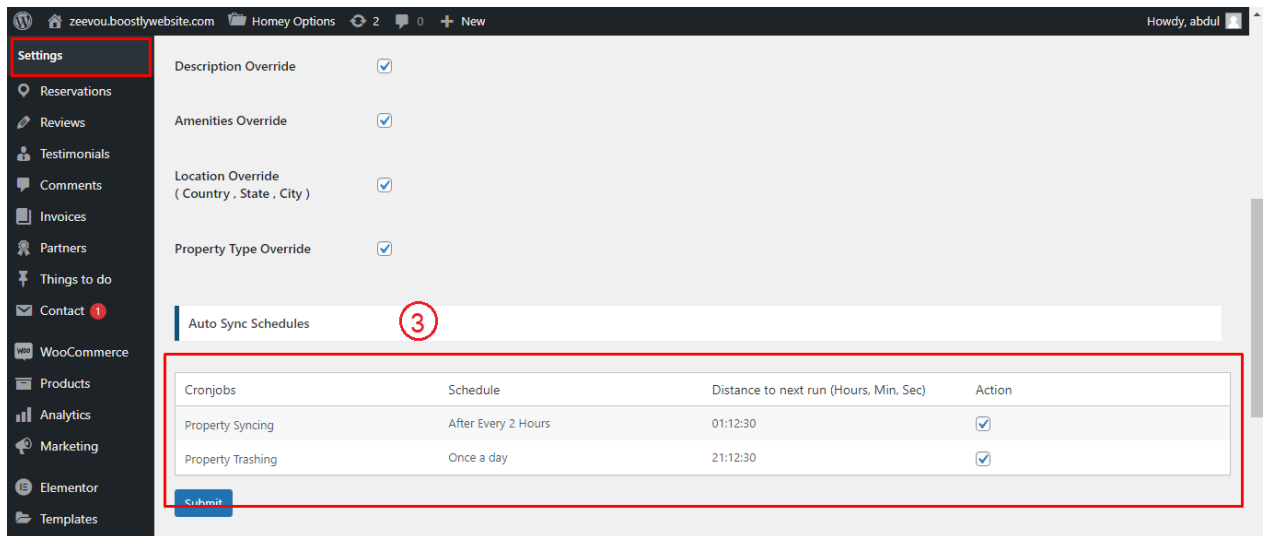

The screenshot shows the Zeevou Listings dashboard. On the left sidebar, the 'Listings' menu item is highlighted with a red box. In the main content area, the 'Zeevou Sync' button is circled in red and labeled with a red circle containing the number 1. Below the button, there is a table of listings with columns: Title, Thumbnail, Type, Price, Featured, Listing ID, Date, and Actions. The table contains five rows of listings, including 'BS-4B2B-9-15B Draft', 'Conker Tree', 'Kings Quarters', 'Petite Suite', and 'The Buddha House'.

2- Single listing sync (Go single listing edit page)

The screenshot shows the Zeevou Edit Listing page for 'Conker Tree'. The 'Zeevou Sync' button is circled in red and labeled with a red circle containing the number 2. The page includes a title field, a permalink field, and an 'Edit with Elementor' button. On the right sidebar, there are sections for 'Publish' (Status: Published, Visibility: Public, Published on: Sep 25, 2021 at 09:03) and 'Listing Type' (Apartment, Apartment Hotel, Dedicated Apartment Block, Holiday home, House, Loft). The 'Apartment' option is selected under Listing Type.

Auto Sync Settings

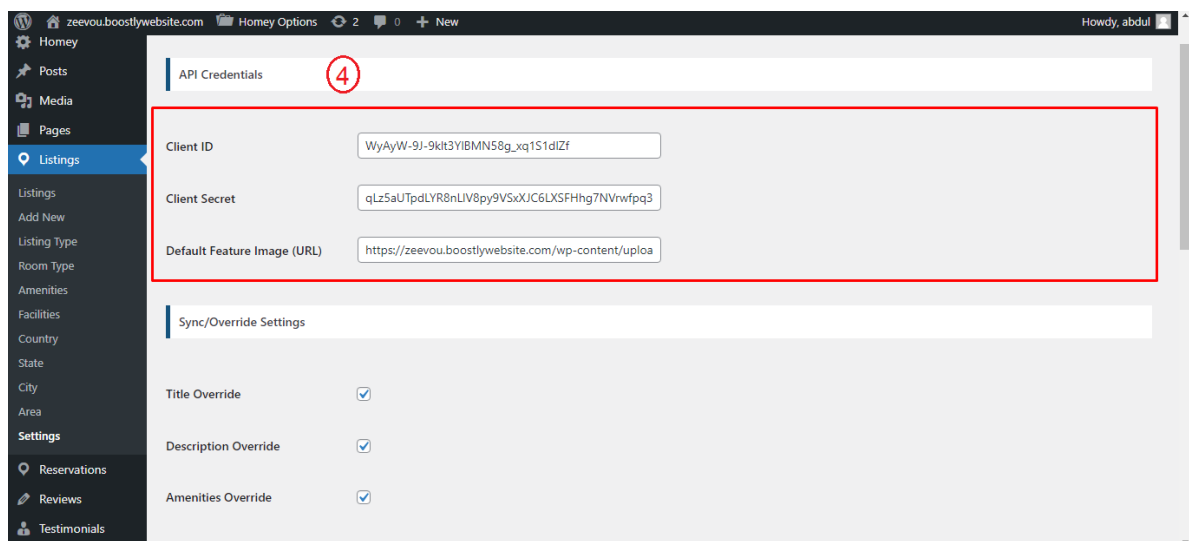

- 1- Plugin Setting page (Go to Listings > Settings)
- 2- View existing auto schedules
- 3- Can enable/Disable each auto sync by clicking checkbox under Action Column.

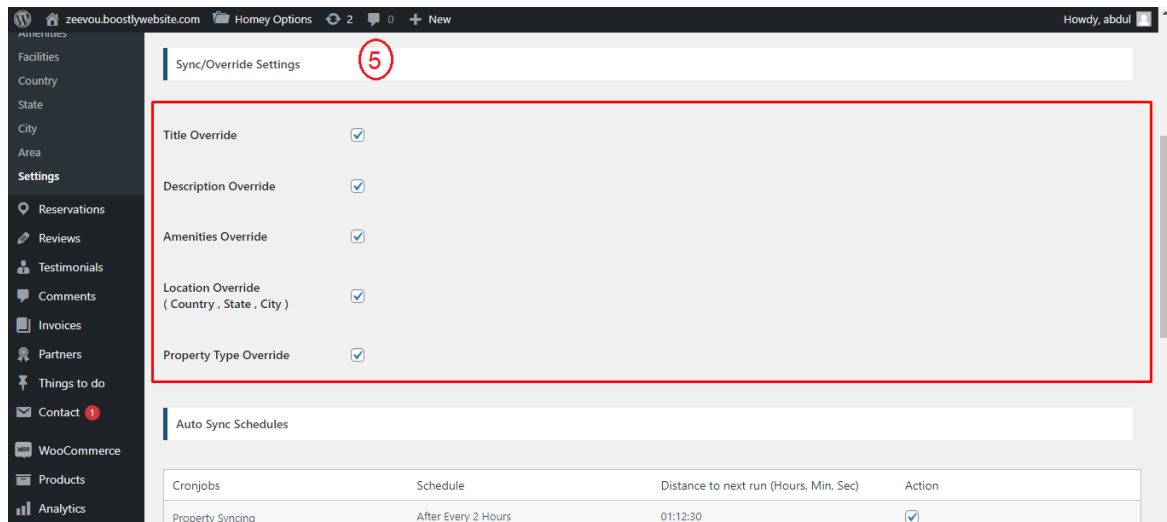

4- Website Settings

Plugin Settings

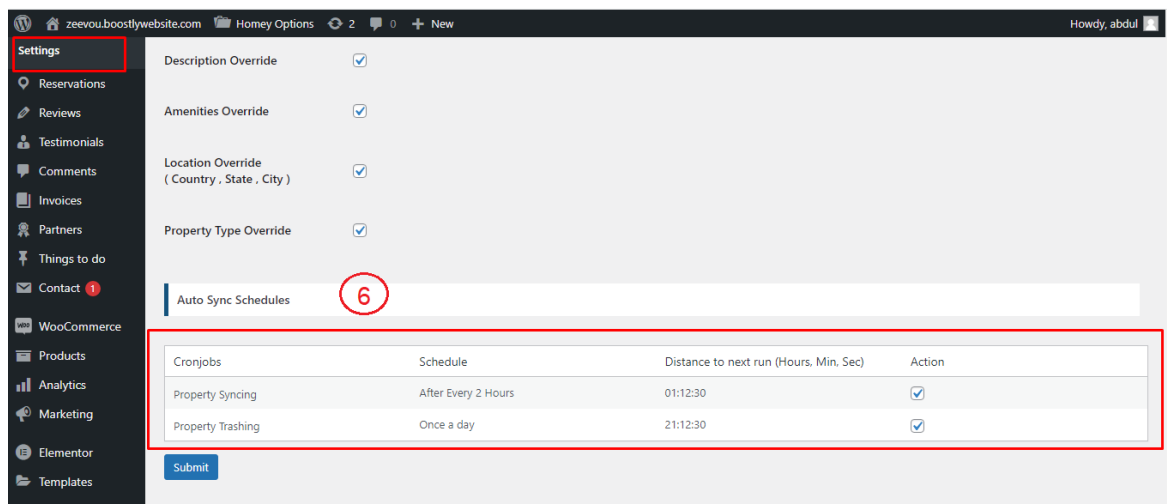

- 1- Plugin Setting page (Go to Listings > Settings)
- 2- Enter required API credentials

- 3- Override options
- 4- You can enable / disable override settings for API data.

5- Can view and enable/disable Auto Syncs.

5- Customization

Auto Registration

Changes for auto registrations module are in following files.
